

## DEGA Zc II

External flood sensor

The external flood sensor is used for the detection of flooding and it is based on the principle of the detection of the flooding of the measuring contacts by water. The sensor can be connected to the DEGA UPA II compact controller or to the DEGA05 compact detector.

### Technical data and informations

Power supply:	12V
Cable for the power supply of the controller:	cable 4x1 mm <sup>2</sup> , or UTP cat5e
Output:	voltage output
Environment:	non-explosive atmosphere
Ingres protection:	IP 20
Dimensions (WxHxD):	35x55x25mm
Weight:	0,1 kg
Operating temperature range:	-25 to + 40°C
Relative humidity in the air:	max. 95% at + 40°C (without condensation)
